WORKSTATIONS	Minimum	Recommended
Monitors and Video Cards	▪ 22-inch wide screen ▪ Screen resolution 1366 x 768 or higher	▪ 24-inch or larger wide screen ▪ Screen resolution 1920 x 1080 or higher
Operating System	▪ Windows 10 Home	▪ Windows 10 Home
Hard Drive Space	▪ 20 MB disk space	▪ 20 MB disk space
RAM	▪ 12 GB or more	▪ 16 GB or more
Other		▪ Headphones or speakers (for training videos)

NOTE: QFloors is a 32-bit software, but does install and function in 64-bit computers.

NETWORK
General Information
- We strongly discourage using wireless networking and wireless Internet.
- Will not work with a VPN connection due to extremely high volumes of data transfer.
- QFloors Sybase uses a Sybase™ database engine. Therefore, it will not install on a server that has a version of QuickBooks™ installed (and possibly other programs) that also runs on a Sybase™ database engine. QFloors SQLite will not have interference with QuickBooks™.

1 - 5 Workstations
- Peer-to-peer network is acceptable, or dedicated server configuration.

6 or More Workstations
- Dedicated server configuration.

Multiple Locations
- QCloud remote hosting by QFloors, or your own server with Windows Remote Desktop, or other remote connection utility/software. Remote Desktop may require more RAM and other system resources. Consult with your computer/network administrator.
