

RAISE PROFITS • LOWER STRESS

System Requirements

SERVER

	Minimum	Recommended
Monitor and Video Card	<ul style="list-style-type: none"> 22-inch screen Screen resolution 1366 x 768 or higher (only if server is not a workstation) 	<ul style="list-style-type: none"> 24-inch or larger screen Screen resolution 1920 x 1080 or higher. (Smaller monitor and resolution are OK if server is not a workstation)
Operating System	<ul style="list-style-type: none"> Windows 11 Pro (up to 5 users) Server 2022 (6 or more users) 	<ul style="list-style-type: none"> Windows 11 Pro (up to 5 users) Server 2025 (6 or more users)
Hard Drive	<ul style="list-style-type: none"> 7200+ RPM Hard Disk Drive 3 GB disk space 	<ul style="list-style-type: none"> Solid State Drive (SSD) 10 GB disk space or more
RAM	<ul style="list-style-type: none"> 16 GB or more 	<ul style="list-style-type: none"> 32 GB or more

WORKSTATIONS

	Minimum	Recommended
Monitors and Video Cards	<ul style="list-style-type: none"> 22-inch screen Screen resolution 1366 x 768 or higher 	<ul style="list-style-type: none"> 24-inch or larger screen Screen resolution 1920 x 1080 or higher
Operating System	<ul style="list-style-type: none"> Windows 11 Pro 	<ul style="list-style-type: none"> Windows 11 Pro
Hard Drive Space	<ul style="list-style-type: none"> 20 MB disk space 	<ul style="list-style-type: none"> 20 MB disk space
RAM	<ul style="list-style-type: none"> 16 GB or more 	<ul style="list-style-type: none"> 32 GB or more
Other		<ul style="list-style-type: none"> Headphones or speakers (for training videos)

NOTE: QFloors is a 32-bit software, but does install and function in 64-bit computers.

NETWORK

General Information

- We strongly discourage using wireless networking and wireless Internet.
- Will not work with a VPN connection due to extremely high volumes of data transfer.

1 - 5 Workstations

- Peer-to-peer network is acceptable, or dedicated server configuration.

6 or More Workstations

- Dedicated server configuration.

Multiple Locations

- QCloud remote hosting by QFloors, or your own server with Windows Remote Desktop, or other remote connection utility/software. Remote Desktop may require more server RAM and other system resources. Consult with your computer/network administrator.
